

TOWN OF PRESCOTT VALLEY GLASSFORD HILL ROAD ENHANCEMENT PROJECT Beginning September 11

Project Update:

The initial phase of northbound paving on Glassford Hill Road, spanning from Veterans Way to Main Street, is nearly finished.

Our progress will extend to the southbound section, encompassing E Panther Path to Lakeshore Drive, commencing Monday of next week. Throughout this phase, drivers will encounter single-lane restrictions within the work zone, with anticipated minimal disruptions.

The businesses along the corridor are open and we encourage you to SHOP LOCAL and support them during and after construction.

What to Anticipate:

Motorists should be prepared for a reduced speed limit within the construction area, accompanied by certain turning movement constraints. Clearly marked alternative routes will guide the way. We encourage you to continue supporting the businesses along the corridor during this construction period.

Our dedicated project outreach team remains available to address any inquiries or concerns you may have during this construction period. Your understanding and patience throughout this process are greatly appreciated.

Once the Project is Complete:

Drivers will experience a new, smooth roadway. We appreciate your patience and cooperation during construction.
